

PLAYWOOD

EMIL
AMERICA

 STOCKED IN THE US

Playwood is a new Emilceramica collection that extends an invitation to experiment during the design process. Its ceramic material is inspired by oak wood and comes in a range of three sizes, the pieces in a game to be played with shapes to create infinite compositional layouts. These shades can be used either individually or combined. In both appearance and 'feel', the ceramic material is a very close replica of the original wood, an achievement enabled in part by the exclusive Digitouch production process.

9,5 mm.

PLAYBRICK Naturele R10

2 1/16" x 11 13/16"

EN4F Light Oak
108 patterns

EN4E Pure Oak
115 patterns

EN4D Intense Oak
113 patterns

PERFORMANCE CHARACTERISTICS	STANDARD	TEST RESULT
Water Absorption	ASTM C373	Compliant
Breaking Strength	ASTM C648	≥ 400 lbf
Chemical Resistance	ASTM C650	Unaffected
Stain resistance	ASTM C1378	Class A
Slip resistance	ANSI A326.3:2017 DCOF	Wet ≥ 0,50
