

### Full Cookie policy statement

**pursuant to the Measure issued by the Italian Data Protection Supervisory Authority (Garante della Privacy) on 8 May 2014, and art. 13 of Regulation (EU) 2016/679 on Data Protection (GDPR)**

By means of this cookie policy statement, the Data Controller, as defined below, wishes to inform users concerning the purposes and procedures regarding the processing of their personal data deriving from the use of cookies by this domain [www.emilamerica.com](http://www.emilamerica.com) (the “**Website**”), in accordance with the “*Simplified procedures for information and consent concerning the use of cookies*” measure issued by the Italian Data Protection Supervisory Authority on 8 May 2014 and pursuant to art. 13 of the General Regulation (EU) 2016/679 on Data Protection (“**GDPR**”).

#### **1. Identity of the Data Controller**

The Data Controller and Website manager is Emilceramica S.r.l. a socio unico (“**Emilceramica**” or “**Data Controller**”), with registered office at via Ghiarola Nuova no. 29, 41042 Fiorano Modenese (Modena, Italy), in the person of its current legal representative.

To exercise your rights as listed in art. 9 below, or for any information concerning them and/or this Cookie Policy Statement, you may contact the Data Controller through the Marketing Department at [privacy@emilceramicagroup.it](mailto:privacy@emilceramicagroup.it)

The Data Controller has appointed a Data Protection Officer (“**DPO**”), whom you can contact to exercise your rights, as listed in point 7 below, as well as to receive any information concerning them and/or this Policy Statement, by writing to: [dpo@emilceramicagroup.it](mailto:dpo@emilceramicagroup.it)

#### **2. What cookies are and what they are for**

Cookies are small strings of text that the sites the user visits send to his terminal (normally the browser), where they are stored to be retransmitted to the same sites the next time the same user visits them. When the user is browsing the Website, his terminal may also receive cookies sent by other sites or web servers (“**third parties**”), which may carry materials (such as images, maps, sounds, specific links to pages in other domains, etc.) present on the Website he is visiting.

Cookies are used for a variety of purposes: IT authentication; session monitoring; the storage of data on specific configurations relating to users who access the server; storage of preferences, etc.

In order to regulate these devices correctly, it is necessary to distinguish between the various types of cookies.

#### **3. Types of cookies**

It is possible to distinguish between various types of cookies on the basis: (A.) of the party which installs the cookies; (B.) of the duration of the processing; (C.) of the purpose of the processing.

- A. Depending on the party which installs the cookies on the user’s terminal, a distinction is made between: (a) “*first-party cookies*”, installed directly by the manager of the website visited by the user; and (b) “*third-party cookies*” installed by the manager of another website, which installs the cookies via the first. This Website only uses

temporary or permanent *third-party cookies* in anonymous formats, for the sole purpose of enabling the Data Controller to utilise web analytics services supplied by third parties.

- B. On the basis of the duration of the processing, there is a distinction between: (a) “*session cookies*”, which are stored temporarily during the browsing session and automatically erased from the user’s terminal after the browser is shut down; and (b) “*persistent cookies*”, which persist on the user’s terminal until a set expiry date (for example, until the end of the year) or until they are erased.
- C. With regard to the type of processing, the distinctions between: (a) “*technical cookies*”, used for the sole purpose of enabling the user to browse and utilise the website correctly (e.g. normal display or scrolling of pages, etc.); and (b) “*profiling cookies*”, which create profiles relating to the user, and are used to send targeted advertising messages in line with the preferences shown by the user when browsing the Internet. Unlike technical cookies, profiling cookies are not necessary for the correct operation of the Website and they may not be used without the user’s consent.

The table below summarises the different types of *technical cookies*

<i>Type of cookie</i>	<i>Function</i>
<b><i>Navigation Cookies</i></b>	<p><i>Navigation cookies</i> improve the browsing experience and enable the website to function correctly by saving browsing preferences and allowing, in particular:</p> <ul style="list-style-type: none"> <li>(i) display of contents in each user’s language right from the first access. In fact, <i>navigation cookies</i> are able to recognise the country from which the user is accessing the Website and ensure that, whenever he visits it, he will be automatically directed to the version of the Website intended for that specific country;</li> <li>(ii) log-in to the Website and management of individual purchases. <i>Navigation cookies</i> enable the Website to recognise registered users as such at each access.</li> </ul> <p><i>Navigation cookies</i> are necessary for the correct operation of the website and for the provision of some services.</p>
<b><i>Analytical cookies</i></b>	<p><i>Analytical cookies</i> are used to produce statistics about the number of users and the relative ways in which they browse the website. Using <i>analytical cookies</i>, the data controller collects aggregate information and processes the results of the analyses in anonymous form, to obtain general statistics about the service and its use.</p> <p><i>Analytical cookies</i> are not essential for operation of the website.</p>
<b><i>Functional Cookies</i></b>	<p><i>Functional cookies</i> enable the Website to recognise the user on the basis of a number of preset criteria (e.g. language) in order to improve the quality of the service offered. These cookies also enable the Website to recognise the user, if he specifically requests this (for example, by clicking “<a href="#">Recognise me next time</a>”) whenever the user visits the Website, so that he will not be obliged to enter his credentials again.</p> <p><i>Functional cookies</i> are not essential for operation of the Website, but they improve its quality and thus the browsing experience.</p>

#### 4. Types of cookies used by this Website

The tables below list the cookies present on the website, indicating their duration and function; for cookie disabling procedures, see point 6 of this document.

**Session cookies:** these are cookies only active for the session in question, and allow temporary storage of the information needed to navigate between pages, so that these data do not have to be entered again every time. The use of these cookies is restricted solely to the transmission of session identifiers (consisting of random numbers generated by the server), necessary to allow safe, efficient navigation of the Website. The session cookies used on this Website mean it is not necessary to use other data processing techniques which potentially compromise the navigation privacy levels for users and they do not allow the acquisition of personal data which can identify the user. These cookies are only installed via the Website.

**Functional cookies:** these are cookies used to save personalisations chosen by the user, such as the language. This Website uses cookies which are not persistently stored on the user's computer, the use of which is strictly limited to the correct operation of the technology concerned, which would otherwise cease to function. These cookies do not record any type of information which may allow identification of the individual user. These cookies are only installed via the Website. The user's consent is not necessary for the use of cookies of this type.

**Profiling cookies:** these are cookies which identify the user's preferences by tracking the websites visited and searches performed, in order to create a profile of the user and send him targeted advertising, which may also be third-party. The company uses these cookies in order to study the market, also in aggregate form, and to offer users a service which ensures that the advertising presented for their attention corresponds more closely to their own needs and preferences.

#### FIRST-PARTY COOKIES

##### Technical

Cookie name	Type	Duration	More information	Provider
sessionidaccounts	Http	14 days	User session tracking cookie	<a href="http://emilamerica.com">emilamerica.com</a>
popup_countries	Http	1 year	Records the user's choice regarding chosen country of browsing to avoid repetition of selection popups	<a href="http://emilamerica.com">emilamerica.com</a>

##### Statistics

#### GOOGLE ANONYMIZED

Cookie name	More information	Provider	Duration
_ga	Used to distinguish users.	<a href="http://Google">Google</a>	26 months
_gid	Used to distinguish users.	<a href="http://Google">Google</a>	24 hours
_gat	Used to throttle request rate. If Google Analytics is deployed via Google Tag Manager, this cookie will be named <code>_dc_gtm_&lt;property-id&gt;</code> .	<a href="http://Google">Google</a>	1 minute
_gac_<property-id>	Contains campaign related information for the user. If you have linked your Google Analytics and Google Ads accounts, Google Ads website conversion tags will read this cookie unless you opt-out.	<a href="http://Google">Google</a>	90 days

__utma	Used to distinguish users and sessions. The cookie is created when the javascript library executes and no existing __utma cookies exists. The cookie is updated every time data is sent to Google Analytics.	<a href="#">Google</a>	26 months
__utmt	Used to throttle request rate.	<a href="#">Google</a>	10 minutes
__utmb	Used to determine new sessions/visits. The cookie is created when the javascript library executes and no existing __utmb cookies exists. The cookie is updated every time data is sent to Google Analytics.	<a href="#">Google</a>	30 mins from set/update
__utmc	Not used in ga.js. Set for interoperability with urchin.js. Historically, this cookie operated in conjunction with the __utmb cookie to determine whether the user was in a new session/visit.	<a href="#">Google</a>	End of browser session
__utmz	Stores the traffic source or campaign that explains how the user reached your site. The cookie is created when the javascript library executes and is updated every time data is sent to Google Analytics.	<a href="#">Google</a>	6 months from set/update
__utmv	Used to store visitor-level custom variable data. This cookie is created when a developer uses the _setCustomVar method with a visitor level custom variable. This cookie was also used for the deprecated _setVar method. The cookie is updated every time data is sent to Google Analytics.	<a href="#">Google</a>	26 months

### THIRD-PARTY COOKIES

#### Technical

Cookie name	Type	Duration	More information	Provider
csrftoken	Http	1 year	Cross-Site Request Forgery check cookie	<a href="#">emilamerica.com</a>
sessionid	Http	14 days	User session tracking cookie	<a href="#">emilamerica.com</a>

#### Marketing

##### GOOGLE

Cookie name	More information	Provider	Duration
ID (1.5 years) / DSID (1.5 years) / IDE (1.5 years) / test_cookie	These cookies set by a third party (DoubleClick) and are used for serving targeted advertisements that are relevant to you across the web. Targeted advertisements may be displayed to you based on your previous visits to this website. For example, advertisements about a topic you have expressed an interest in while browsing our site may be displayed to you across the web. In addition, these cookies measure the conversion rate of ads presented to the user.	<a href="#">Google</a>	1.5 years

##### FACEBOOK

Cookie name	More information	Provider	Duration
act	The act cookie contains a unix timestamp value (The value is defined as the number of seconds elapsed since midnight UTC of January 1, 1970, not counting leap seconds) representing the time at which the user logged in.	<a href="#">Facebook</a>	90 days

c_user	The c_user cookie contains the user ID of the currently logged in user.	<a href="#">Facebook</a>	90 days
datr	The purpose of the datr cookie is to identify the web browser being used to connect to Facebook independent of the logged in user. This cookie plays a key role in Facebook's security and site integrity features.	<a href="#">Facebook</a>	2 years
fr	Noticed this cookie is being used by Facebook. But not sufficient information on the use of this cookie.	<a href="#">Facebook</a>	Expires approximately in 3 months from the creation time.
presence	The presence cookie is used to contain the user's chat state. For example, which chat tabs are open. This cookie is a session cookie.	<a href="#">Facebook</a>	Expires when the browser session ends.
sb	Noticed this cookie is being used by Facebook. But not sufficient information on the use of this cookie. This is a persistent cookie.	<a href="#">Facebook</a>	Expires in 2 years from the creation time.
spin	Noticed this cookie is being used by Facebook. But not sufficient information on the use of this cookie.	<a href="#">Facebook</a>	Expires in 1 day and 1 hour from the creation time.
wd	This cookie stores the browser window dimensions and is used by Facebook to optimise the rendering of the page.	<a href="#">Facebook</a>	Expires in 1 week from the creation time.
xs	This cookie contains multiple pieces of information, separated by colon (colon is encoded to the value %3A for transmission). The first value is an up to two-digit number representing the session number. The second portion of the value is a session secret. The third, optional component is a 'secure' flag for if the user has enabled the secure browsing feature. The lifetime of this cookie is dependent on the status of the 'keep me logged in' checkbox. If the 'keep me logged in' checkbox is set, the cookie expires after 90 days of inactivity. If the 'keep me logged in' checkbox is not set, the cookie is a session cookie.	<a href="#">Facebook</a>	Expires approximately in 3 months from the creation date (if Remember Me option is set) / Expires when the browser session ends.
locale	This cookie contains the display locale of the last logged in user on this browser. This cookie appears to only be set after the user logs out.	<a href="#">Facebook</a>	Expires in 1 week from the creation time.

## LINKEDIN

Cookie name	More information	Provider	Duration
li_at	Used to authenticate Members and API clients	<a href="#">LinkedIn</a>	1 year
liap	Used by non-www.domains to denote the logged in status of a member	<a href="#">LinkedIn</a>	1 year

leadgen.api_session	Stores client ID for Leadgen applications	<a href="#">Linkedin</a>	Session
transaction_state	Used to redirect users accessing LinkedIn through third party apps for authorization	<a href="#">Linkedin</a>	Session
PLAY_SESSION	Used by some LinkedIn services to store session information	<a href="#">Linkedin</a>	Session
lihc_auth_str	Used by LinkedIn HelpCenter Live Chat to store session information	<a href="#">Linkedin</a>	Session
lihc_auth_*	Used by LinkedIn HelpCenter Live Chat to store language and chat start timestamp	<a href="#">Linkedin</a>	Session

## Security

Cookie name	More information	Provider	Duration
fid	Used to track malicious activity on the site	<a href="#">Linkedin</a>	7 days
bcookie	Browser Identifier cookie to uniquely identify devices accessing LinkedIn to detect abuse on the platform	<a href="#">Linkedin</a>	2 years
bscookie	Used for saving the state of 2FA of a logged in user	<a href="#">Linkedin</a>	2 years
fcookie	To determine if a user is a person and not a bot	<a href="#">Linkedin</a>	Session
ccookie	To remember if a user received a captcha challenge	<a href="#">Linkedin</a>	20 minutes
JSESSIONID	Used for CSRF protection	<a href="#">Linkedin</a>	Session
chp_token	Used to denote whether the user has gone through 2FA or solved a Captcha	<a href="#">Linkedin</a>	Session
li_cu	Used to map a user to a captcha challenge page	<a href="#">Linkedin</a>	15 minutes
cf_ob_info	Used by Cloudflare to track the request path and status through Cloudflare network to end servers for security purposes	<a href="#">Cloudflare</a>	3 days
cf_use_ob	Used by Cloudflare in the event servers are down, for showing a cached version of any requested web page	<a href="#">Cloudflare</a>	3 days
cfuid	Used to detect potential malicious visitors to Cloudflare proxied sites	<a href="#">Cloudflare</a>	30 days
denial-client-ip	Used for anti-scraping and DOS prevention	<a href="#">Linkedin</a>	5 seconds
denial-reason-code	Used for anti-scraping and DOS prevention	<a href="#">Linkedin</a>	5 seconds
rtc	Used as part of anti-abuse processes on LinkedIn	<a href="#">Linkedin</a>	120 seconds
trkInfo	Used as part of anti-abuse processes on LinkedIn	<a href="#">Linkedin</a>	5 seconds
trkCode	Used as part of anti-abuse processes on LinkedIn	<a href="#">Linkedin</a>	5 seconds
spectroscopyld	Used to catch malicious activity through browser extensions	<a href="#">Linkedin</a>	7 days
fptctx2	Used to prevent abuse in payment workflows for LinkedIn	<a href="#">Microsoft</a>	Session
MUID	Unique user identifier to prevent abuse in payment workflows for LinkedIn	<a href="#">Microsoft</a>	2 years

## Preferences/Features/Services

Cookie name	More information	Provider	Duration
li_rm	Used as part of LinkedIn's Remember Me Feature and is set when a user clicks "Remember me" on their device to make logging in on that device easier	<a href="#">Linkedin</a>	1 year

BizographicsOptOut	Used to determine whether a use has opted out of behavioural advertising	<a href="#">Linkedin</a>	10 years
ac_L	Counts the number of times the account center banner was closed by a user to determine display logic	<a href="#">Linkedin</a>	180 days
ac_LD	Contains the date when the account center was displayed to a user to determine display logic	<a href="#">Linkedin</a>	180 days
recent_history_status	Used to determine whether a user enabled or disabled settings of guest recent history	<a href="#">Linkedin</a>	10 years
li_cc	Used to ensure users phone number is inputted in China	<a href="#">Linkedin</a>	1 week
all_u_b	To know if a user has opted in to viewing LinkedIn on an unsupported browser	<a href="#">Linkedin</a>	21 days
lang	Used to remember a user's language setting	<a href="#">Linkedin</a>	Session
uh	Used to set the user preference for the mobile web platform	<a href="#">Linkedin</a>	Session
pushPermInfo	Used to determine cool off for push notification prompts	<a href="#">Linkedin</a>	365 days
pushPermState	Used to determine push notification permission state	<a href="#">Linkedin</a>	30 days
G_AUTHUSER_H	Used by Google Single Sign On	<a href="#">Google</a>	Session
G_ENABLED_IDPS	Used by Google Single Sign On	<a href="#">Google</a>	2 years
g_state	Stores the timestamp and dismiss count for Google's one tap prompt feature	<a href="#">Google</a>	180 days
lidc	To optimize data center selection	<a href="#">Linkedin</a>	24 hours
integration_type	Used to determine which integration traffic is coming from to render the profile namecard experience	<a href="#">Linkedin</a>	30 days
lissc	Used to ensure there is correct SameSite attribute for all cookies in that browser	<a href="#">Linkedin</a>	365 days
lissc1	Used to assess SameSite cookie attribute and study its impact on LinkedIn	<a href="#">Linkedin</a>	30 days
lissc2	Used to assess SameSite cook attribute and study its impact on LinkedIn	<a href="#">Linkedin</a>	30 days
interstitial_page_reg_oauth_url	Used to identify if a user has signed up to LinkedIn through a third-party app, to provide the applicable onboarding flow	<a href="#">Linkedin</a>	24 hours
wwepo	Used to ensure the preference of phone only members	<a href="#">Linkedin</a>	90 days
sdsc	Signed data service context cookie used for database routing to ensure consistency across all databases when a change is made	<a href="#">Linkedin</a>	Session
li_gc	Used to store consent of guests regarding the use of cookies for non-essential purposes	<a href="#">Linkedin</a>	2 years
li_mc	Used as a temporary cache to avoid database lookups for member's consent for use of non-essential cookies and used for having consent information on the client side to enforce consent on the client side	<a href="#">Linkedin</a>	2 years
PLAY_FLASH	Used by some LinkedIn services to facilitate the display of messages on page transitions	<a href="#">Linkedin</a>	Session
PLAY_LANG	Used by some LinkedIn services to remember a user's language preference	<a href="#">Linkedin</a>	Session

visit	To determine whether to take a user to the registration page or the login page	<a href="#">Linkedin</a>	1 year
redirectFromM2MInviteAccept	Used to notify the user that an invite has been accepted	<a href="#">Linkedin</a>	Session
redirectFromM2MInviteSent	Used to notify the user that an invite has been sent	<a href="#">Linkedin</a>	Session
cookie.policy.banner.eu	Used to display cookie banner in LinkedIn Lite	<a href="#">Linkedin</a>	365 days
cookie.policy.banner.nl	Used to display cookie banner in LinkedIn Lite	<a href="#">Linkedin</a>	365 days
appName	Used to identify the source as the LinkedIn Lite app to send the right service worker to the app	<a href="#">Linkedin</a>	Session
applang	Used to set the right language on the LinkedIn Lite app	<a href="#">Linkedin</a>	Session

### Cookies LinkedIn drops on third party sites

Cookie name	More information	Provider	Duration
UserMatchHistory	LinkedIn Ads ID syncing	<a href="#">Linkedin</a>	30 days
AnalyticsSyncHistory	Used to store information about the time a sync with the lms_analytics cookie took place for users in the Designated Countries	<a href="#">Linkedin</a>	30 days
li_oatml	Used to identify LinkedIn Members off LinkedIn for advertising and analytics outside the Designated Countries and, for a limited time, advertising in the Designated Countries	<a href="#">Linkedin</a>	30 days
lms_ads	Used to identify LinkedIn Members off LinkedIn in the Designated Countries for advertising	<a href="#">Linkedin</a>	30 days
lms_analytics	Used to identify LinkedIn Members in the Designated Countries for analytics	<a href="#">Linkedin</a>	30 days
li_fat_id	Member indirect identifier for Members for conversion tracking, retargeting, analytics	<a href="#">Linkedin</a>	30 days
li_sugr	Used to make a probabilistic match of a user's identity outside the Designated Countries	<a href="#">Linkedin</a>	90 days
U	Browser Identifier for users outside the Designated Countries	<a href="#">Linkedin</a>	3 months
_guid	Used to identify a LinkedIn Member for advertising through Google Ads	<a href="#">Linkedin</a>	90 days
BizographicsOptOut	Determine opt-out status for 3rd party tracking	<a href="#">Linkedin</a>	10 years

### Personalized Advertising

Cookie name	More information	Provider	Duration
UserMatchHistory	LinkedIn Ads ID syncing	<a href="#">Linkedin</a>	30 days
li_oatml	Used to identify LinkedIn Members off LinkedIn for advertising and analytics outside the Designated Countries and, for a limited time, advertising in the Designated Countries	<a href="#">Linkedin</a>	30 days
lms_ads	Used to identify LinkedIn Members off LinkedIn in the Designated Countries for advertising	<a href="#">Linkedin</a>	30 days
li_fat_id	Member indirect identifier for Members for conversion tracking, retargeting, analytics	<a href="#">Linkedin</a>	30 days

li_sugr	Used to make a probabilistic match of a user's identity outside the Designated Countries	<a href="#">Linkedin</a>	90 days
U	Browser Identifier for users outside the Designated Countries	<a href="#">Linkedin</a>	3 months
_guid	Used to identify a LinkedIn Member for advertising through Google ads	<a href="#">Linkedin</a>	90 days
A3	Ads targeting cookie for Yahoo	<a href="#">Yahoo</a>	1 year
anj	Ads targeting cookie for AppNexus	<a href="#">AppNexus</a>	3 months
uuids	Used by ad nexus analytics by AppNexus	<a href="#">AppNexus</a>	3 months
ELOQUA	Used for tracking by ELOQUA	<a href="#">ELOQUA</a>	2 years
ELQSTATUS	Used for tracking by ELOQUA	<a href="#">ELOQUA</a>	2 years
dmp	Sends events to Adobe Audience Manager	<a href="#">Adobe</a>	6 months
dextp	Records last time a data synchronization call was performed	<a href="#">Adobe</a>	6 months
demdex	Visitor identification	<a href="#">Adobe</a>	6 months
dst	Logs when there is an error sending data to destination. Used as part of Adobe Audience Manager	<a href="#">Adobe</a>	6 months
Inkd	Sends event to Adobe Audience Manager	<a href="#">Adobe</a>	6 months
aam_uuid	Set for ID sync for Adobe Audience Manager	<a href="#">Adobe</a>	30 days
MUID	Bing Tracking	<a href="#">Microsoft</a>	1 year
MR	Bing Tracking	<a href="#">Microsoft</a>	6 months
MR2	Bing Tracking	<a href="#">Microsoft</a>	6 months
IDE	Ads targeting cookie for DoubleClick	<a href="#">Google</a>	2 years
fr	Ads targeting cookie for Facebook	<a href="#">Facebook</a>	3 months
personalization_id	Ads targeting cookie for Twitter	<a href="#">Twitter</a>	2 years
GUC	Yahoo Conversion Tracking	<a href="#">Yahoo</a>	5 months
B	Yahoo Conversion Tracking	<a href="#">Yahoo</a>	1 year
test_cookie	Test for cookie setting permissions in user's browser	<a href="#">Google</a>	1 day
_gcl_au	Used through Google Analytics to understand user interaction with the site and advertising	<a href="#">Google</a>	3 months
_gcl_aw	Used through Google Ads to understand user interaction with the site and advertising	<a href="#">Google</a>	3 months
_gcl_dc	Used through Google Campaign Manager and DV 360 to understand user interaction with the site and advertising	<a href="#">Google</a>	3 months
brwsr	Affiliate Marketing Cookie for LinkedIn	<a href="#">Linkedin</a>	2 years
ABSELB	Load Balancer Cookie for affiliate marketing	<a href="#">Linkedin</a>	2 years
IRLD	Affiliate Marketing Cookie for LinkedIn	<a href="#">Linkedin</a>	2 years

### Analytics and Research

Cookie name	More information	Provider	Duration
lms_analytics	Used to identify LinkedIn Members in the Designated Countries for analytics	<a href="#">Linkedin</a>	30 days
AnalyticsSyncHistory	Used to store information about the time a sync took place with the lms_analytics cookie	<a href="#">Linkedin</a>	30 days
queryString	This cookie is used to persist marketing tracking parameters	<a href="#">Linkedin</a>	30 days
SID	Used to determine what a visitor is doing before they convert on a LinkedIn microsite	<a href="#">Linkedin</a>	Session

VID	ID associated with a visitor to a LinkedIn microsite which is used to determine conversions for lead gen purposes	<a href="#">Linkedin</a>	1 year
_ga	Google Analytics cookie	<a href="#">Google</a>	14 months
_gat	Google Analytics cookie	<a href="#">Google</a>	Session
_gid	Google Analytics cookie	<a href="#">Google</a>	1 day
_gac_US-[Property ID]	Google Analytics cookie	<a href="#">Google</a>	90 days
UID	Cookie used for market and user research	<a href="#">Scorecard Research</a>	720 days
UIDR	Cookie used for market and user research	<a href="#">Scorecard Research</a>	720 days
AMCVS_14215E3D5995C57C0A495C55%40AdobeOrg	Indicates the start of a session for Adobe Experience Cloud	<a href="#">Adobe</a>	Session
AMCV_14215E3D5995C57C0A495C55%40AdobeOrg	Unique Identifier for Adobe Experience Cloud	<a href="#">Adobe</a>	180 days
mbox	Used by Adobe Target to analyze the relevance of online content	<a href="#">Adobe</a>	180 days
s_cc	Used to determine if cookies are enabled for Adobe Analytics	<a href="#">Adobe</a>	Session
s_sq	Used to store information about the previous link that was clicked on by the user by Adobe Analytics	<a href="#">Adobe</a>	Session
s_vi	Unique identifier for Adobe Analytics	<a href="#">Adobe</a>	180 days
s_fid	Unique identifier for Adobe Analytics	<a href="#">Adobe</a>	180 days
ki_r	Stores the initial page referrer when available for targeting purposes	<a href="#">Qualaroo</a>	5 years
ki_s	Stores the current state of any survey the user has viewed or interacted with	<a href="#">Qualaroo</a>	5 years
ki_t	Stores the survey timestamps and view counts	<a href="#">Qualaroo</a>	5 years
ki_u	Stores a random UID to associate with survey responses	<a href="#">Qualaroo</a>	5 years

#### Functional

Cookie name	More information	Provider	Duration
recent_history	Used to remember URLs visited by the guest to show the pages back where they left off	<a href="#">Linkedin</a>	90 days

#### BRAINLEAD

Cookie name	More information	Provider	Duration
_bl_vid, _pk_*	We use cookies to deliver a more exciting user experience. Some common uses of cookies include the selection of contents on the basis of relevance to the user, improved reports on campaign efficacy and the possibility of avoiding the display of contents the user has already viewed.	<a href="#">Brainlead</a>	1 year

## 5. Nature and legal basis of the processing of personal data

The use of cookies enables the Data Controller to process the ordinary personal data you contribute when browsing the Website.

*Technical cookies* do not require your prior consent, since: (i) they are necessary for the correct operation of the Website (*navigation cookies*); (ii) they only pursue statistical purposes and collect aggregate data, which are processed by the Data Controller in anonymous form (*analytical cookies*); (iii) they enable users to browse the Website in accordance with the characteristics and criteria which they have chosen themselves, in order to improve the service offered (*functional cookies*).

However, your prior consent is necessary for the processing of your personal data by means of:

(i) *profiling cookies*; and

(ii) *third-party analytical cookies*, when the use of these cookies is not conditional on the adoption of tools to reduce the identifying capacity of the cookies used, or the third party has not given a contractual undertaking to use these cookies solely for the provision of services, and to store them separately, without “enriching” them or “cross-matching” them with other data concerning the user at its disposal.

## 6. How to disable cookies and manage your preferences

The contribution of your personal data for processing by the cookies on the Website is optional and you are free to choose, in your browser, to either accept or disable cookies.

Each user can choose to disable *navigation cookies*, *analytical cookies*, *functional cookies* or *profiling cookies* by modifying his browser settings. If *navigation cookies* are disabled, the use of the Website itself may be prevented; if *analytical cookies* and/or *functional cookies* are disabled, browsing of the Website will not be prevented, but some of its sections and/or functions may no longer be available. Finally, if *profiling cookies* are disabled users will be able to browse the Website freely, but it will not be possible to examine their habits and/or preferences, and therefore they will not receive messages or images about products or services which might be of interest to them.

The following are the links with the instructions to be followed to change the browser settings, including the cookie disabling guidelines.

- Internet Explorer: <https://support.microsoft.com/en-gb/help/17442/windows-internet-explorer-delete-manage-cookies>
- Safari: <https://support.apple.com/en-gb/guide/safari/sfri11471/mac>
- Chrome: <https://support.google.com/chrome/answer/95647?hl=EN-EN&hlrm=fr&hlrm=en>
- Firefox: <https://support.mozilla.org/en-US/kb/enable-and-disable-cookies-website-preferences>

With regard to the third-party cookies used on the Website, users may utilise the links in the table above to access more information and exercise an opt-out on the use of individual third-party cookies.

For any query regarding the Website’s use of cookies, users are advised to refer to:

- <https://www.aboutcookies.org/how-to-delete-cookies/>
- <http://www.youronlinechoices.com/>

## 7. Recipients or categories of recipients of your personal data

Your personal data obtained by means of the cookies on the Website will be made available to Emilceramica’s employees, external consultants and staff in general, working in the capacity of authorised data processors, specifically designated by the Data Controller.

In addition, your personal data may be processed by the following third parties:

- a) IT system management service providers;
- b) technical assistance service providers;
- c) logistics companies, couriers and forwarding agents;
- d) marketing and advertising service providers;
- e) payment service providers;
- f) other service providers;
- g) the data controller's parent company or associated companies

In some cases, the entities in the aforesaid categories operate in complete independence as separate Data Controllers, while in other cases they operate as Data Processors specifically appointed by the Data Controller in accordance with article 28 of the GDPR.

In all cases, your consent is not required for the disclosure of your data to third-party recipients listed above working in the capacity of independent Data Controllers, since it is based on the prevalent legitimate interest of the Data Controller, as the said disclosure is necessary for the pursuance of the purposes set out above.

The complete, updated list of the recipients who may acquire knowledge of your personal data may be requested by contacting the Data Controller using the contacts provided in article 1 above.

Your personal data will not be disseminated.

## 8. Transfer of personal data outside the European Union

Emilceramica intends to transfer your data to non-European Union member states: this transfer is lawful since it is covered by adequacy decisions issued by the European Commission and/or other appropriate guarantees pursuant to article 46, 47 or 49 of the GDPR.

You may request a copy of the safeguards adopted for data transfer outside the EU, and information concerning the places where the data have been made available, by sending a specific request to the Data Controller at the email address [privacy@emilceramicagroup.it](mailto:privacy@emilceramicagroup.it).

## 9. Your rights as data subject

With regard to the data processing described in this Cookie Policy Statement, you may exercise the rights listed in this section, established by Articles 15 to 21 of the GDPR. In particular:

- **Management of your data - Right of access** - Article 15 of the GDPR: right to obtain confirmation of whether or not personal data concerning you are being processed and, if this is the case, to obtain access to your personal data - including a copy of them - and communication of the following information:
  - a) purposes of the processing;
  - b) categories of personal data processed;
  - c) recipients or categories of recipients to whom the personal data have been or will be disclosed;
  - d) data storage period or the criteria use to decide this;
  - e) the right to request the data controller for the rectification or erasure of personal data, or the restriction of the processing of personal data concerning the data subject, or the right to object to the said processing;
  - f) the right to lodge a complaint with the competent authority;
  - g) the origin of the personal data, if they have not been collected directly;
  - h) existence of an automated decision-making process, including profiling;
- **Rectification of inaccurate or incomplete data - Right to rectification** - Article 16 of the GDPR: right to obtain, without undue delay, the rectification of inaccurate personal data concerning you or the completion of incomplete personal data.

- **Erasure - Right to erasure** - Article 17 of the GDPR: right to obtain, without undue delay, the erasure of personal data concerning you, when:
  - i) the data are no longer necessary in relation to the purposes for which they were collected or otherwise processed;
  - j) you have withdrawn consent and where there is no other legal ground for the processing;
  - k) You have submitted a justified objection to the processing of the personal data;
  - l) the data have been unlawfully processed;
  - m) the data have to be erased for compliance with a legal obligation;
  - n) the personal data have been collected in relation to the offer of information society services referred to in article 8, comma 1 of the GDPR.

The right to erasure does not apply to the extent to which the processing is necessary for compliance with a legal obligation or for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller, or for the establishment, exercise or defence of legal claims.

- **Restriction of processing - Right to restriction of processing** - Article 18 of the GDPR: right to obtain restriction of the processing, when:
  - o) the accuracy of the personal data is contested by the data subject;
  - p) the processing is unlawful and the data subject opposes the erasure of the personal data and requests the restriction of their use instead;
  - q) the data subject needs the personal data for the verification, exercise or defence of a right during judicial proceedings;
  - r) the data subject has objected to processing pursuant to Article 21, comma 1 of the GDPR pending the verification whether the legitimate grounds of the controller override his own.
- **Right to data portability** - Article 20 of the GDPR: right to receive the personal data concerning you, which you have provided to the Data Controller, in a structured, commonly used and machine-readable format and the right to transmit those data to another controller without hindrance, if the processing is based on consent and is carried out by automated means. In addition, the right to have your personal data transmitted directly by the Data Controller to the other controller, where technically feasible.
- **Right to object** - article 21 of the GDPR: right to object to the processing of personal data concerning you, unless there are legitimate grounds for the Data Controller to continue the processing;
- **Right to lodge a complaint with the Italian Data Protection Supervisory Authority** - Garante per la protezione dei dati personali, Piazza di Montecitorio n. 121, 00186, Rome (Italy).

The above right may be exercised by contacting the Data Controller at the addresses provided in article 1 above. Please note that we may request confirmation of your identity before acting on your request.
